D Firm/Office IDX Link
This package includes real-time access to both your firm's listings as well as all participating IDX listings currently available within your InnoVia MLS System. The 'Firm Listings' link generates a standard one line display with appropriate links to the expanded display information. The 'All Listings' link provides a standard search screen within your website to allow site visitors to narrow down their search before contacting you saving you valuable time.

D Agent IDX Link
This package includes real-time access to your current property listings, your firm's property listings, and all participating IDX listings currently available within your InnoVia MLS System. The 'My Listings' link will generate a standard one line display for each of your available property listings with appropriate links included to gain access to expanded display information. The 'Firm Listings' link generates a standard one line display of those listings listed specifically by your firm/office with appropriate links to the expanded display information. The 'All Listings' link provides a standard search screen within your website to allow site visitors to narrow down their search before contacting you saving you valuable time.
