

The Pinchot Eagle

Friends of Pinchot State Park

January/February/March 2015

Approximately 90 people participated in Pinchot's "First Day Hike" on New Year's Day 2015.

First Annual "First Day Hike"

On January 1st, Park Naturalist Beth Kepley-McNutt faced approximately 90 people preparing to hike at Gifford Pinchot State Park.

A look at the skies and you would think it was a warm, sunny day. However, the temperature was cold and the wind was blustering. Folks were bundled up in thick winter coats, gloves and hats.

As the group walked along the trail, they occasionally stopped while Beth shared facts about the park and the nature within. At the conclusion of the hike, the Friends of Pinchot State Park provided snacks and hot apple cider. The event was a great success! ■

DID YOU KNOW...

... There is a difference between a blizzard and a snowstorm?

A blizzard is when visibility is reduced to $\frac{1}{4}$ of a mile and the winds are 35 mph or more. The storm also must last at least 3 hours. If any of these conditions are not met, then it is a snowstorm.

Volunteers of 2014

By Jim Merlino, FOPSP Chairman

On behalf of the Board of Directors of the Friends of Pinchot State Park (FOPSP), I would like to thank our members, volunteers, the Keystone Trails Association, the Mason-Dixon Trails Association, private donors, park man-

agement and park staff for all their help throughout the year. Without their support, many of the FOPSP projects would not have been possible.

I would also like to thank the Department of Conservation and Natural Resources (DCNR), the Pennsylvania Parks and Forests Foundation (PPFF), and DCNR volunteers.

Projects the volunteers worked on throughout the 2014 calendar year include: Trail monitoring and maintenance, firewood sales in the campground (cutting, splitting and bundling), fundraising (firewood, bagged ice and clothing), goat care (regularly relocating goats and goat fencing used to manage unwanted vegetation in the campground), cleaning out fire rings, public programs, administrative duties, and various other work projects throughout the park. ■

Delay of Playground Equipment for Conewago Day Use Area

By Jim Merlino, FOPSP Board Chair

In the 2014 membership Friends of Pinchot State Park renewal letter, it was indicated that the playground at the Conewago Day Use Area would be replaced in 2014-2015. The Friends have set the money aside for the project, but there is going to be a delay. The following statement, from park management, will explain the situation:

“The replacement of the playground is temporarily postponed so that park staff is able to concentrate their efforts on the installation of full hook-up sites in the campground. This ongoing campground improvement project is part of a larger comprehensive infrastructure development plan for Pennsylvania State Parks and Forests. The *Enhance Penn's Woods* initiative is a statewide effort to repair and upgrade the State's natural treasures.

Once the large task of installing the full hook-up sites is completed, park staff will then be able to focus on this Friends of Pinchot commitment and other park projects that have been postponed.” ■
