

Everyone can answer this call to action to preserve and create gardens and landscapes that help revive the health of bees, butterflies, birds, bats and other pollinators across the country. We will move millions of individuals, kids and families outdoors and make a connection between pollinators and the healthy food people eat.

Three Simple Steps

Plant Something
For Pollinators

Register Your Garden at
MillionPollinatorGardens.org

Spread The Word and Get
Others to Join In!

Any size is great: Home gardens, patios to pathways, roadsides, club sponsored gardens, and even container gardens. This can be an update to an existing garden.

Add a photo of your garden or landscape to the S.H.A.R.E. map. It's easy to do or get someone to help you.

Invite others to your garden and encourage other club members to participate.

2016 – 2017 Presidents Project Million Pollinator Garden Challenge

Got a Club Project you would like to have happen but need some help with Funding? We have a great project for you this year that is simple, fun, and rewarding. Follow the 3 steps above, send me a list of the club members who participated in the Challenge, along with a simple proposal for the project you want to use the award for, by March 15, 2017.

The 4 clubs that have the best percentage of participation will each be awarded \$1000 to help accomplish their project. Awards will be distributed to clubs at the 2017 AFGC Convention, and the only requirement is that the named project is completed by May 31, 2018.

NOTE: Funds for this award project are from the profits of the very successful 2016 Kaleidoscope fundraiser. This is our chance to give back to you for the great things you do and for supporting and making AFGC a strong organization. Awards are not available to individual members.
