MESSAGE FROM THE DIRECTOR

Over the past year, Johnston Partnership has reached new heights in addressing issues of low-income residents. An expanded focus in the core program areas of student mentoring (JUMP), food and clothing distribution (Partnership Place) and health (immunization clinics) has strengthened the Johnston community. It is through the dedication of many community volunteers from corporate programs, youth groups and Silver Cord students to individuals and families as well as many community partnerships that makes it all possible. With your help we can continue to make a difference together in 2014!

Shawna Beron

MISSION

Uniting local organizations to provide a safe, healthy and nurturing place to live, work and grow by establishing strong community partnerships
